

COURS PRÉPARATOIRE
3 SÉANCES
ANNÉE 2016 - 2017

THÈME ABORDÉ :
«LES TAPIS D'AFRIQUE»
INSPIRÉS PAR LES ANIMAUX

ÉCOLE JULES FERRY
VAISON LA ROMAINE

SOMMAIRE

Bestaire des animaux d'Afrique / Croquis de recherche	4
Tapis africains finalisés	25

Les élèves ont travaillé en décembre 2016 sur l'art africain avec une plasticienne : Brigitte Miribel, en liaison avec le projet d'école « Le tour du monde en 180 jours ».

A chaque période (c'est à dire entre deux vacances) les élèves étudient un continent.

En classe sont étudiés : le continent, la géographie, les hommes et leur habitat, les modes de vie et de déplacement, les animaux, la végétation, la nutrition.

Brigitte Miribel est partie de l'observation des animaux, des motifs des tapis, des couleurs, des hiéroglyphes et leurs caractéristiques.

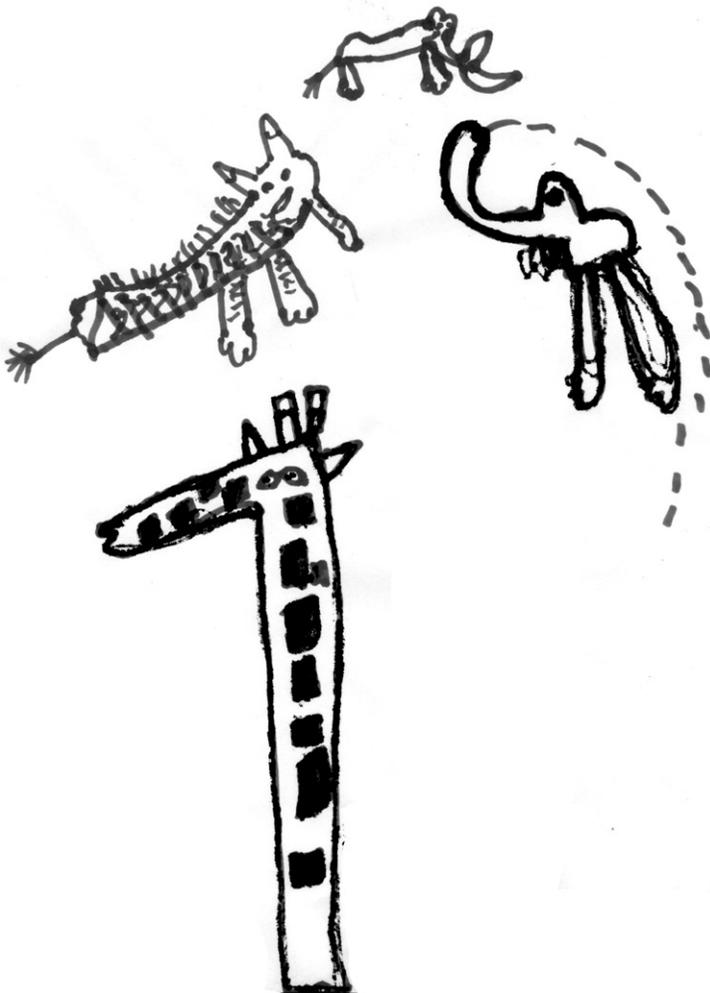

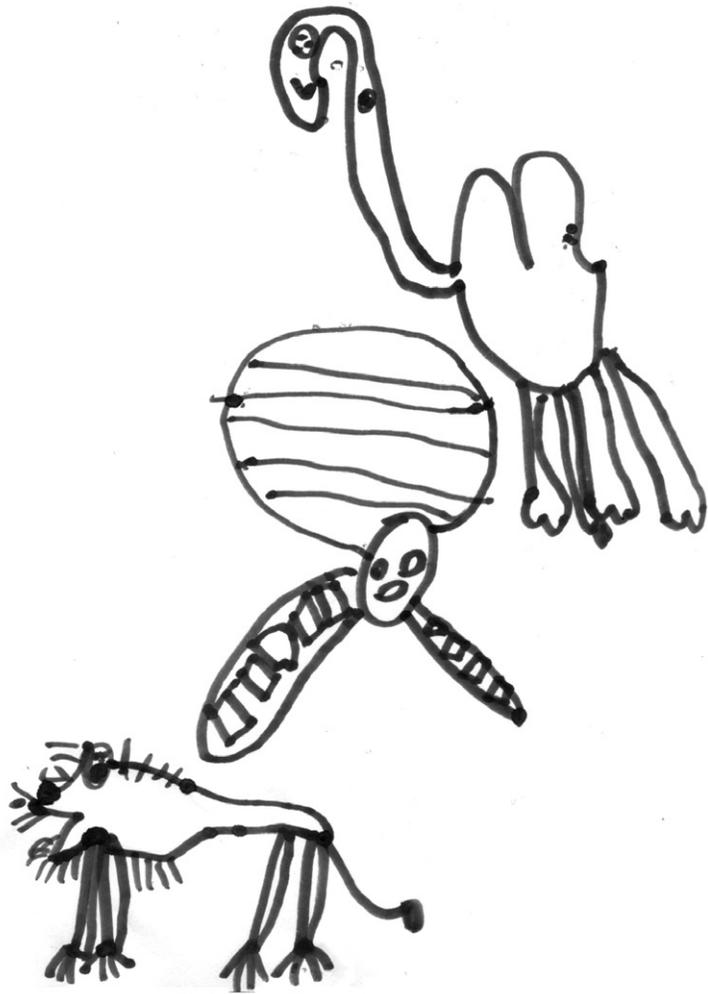

Les élèves ont recherché, stylisé au feutre noir les animaux choisis. Cet outil qui ne s'efface pas, permet de libérer le geste et d'accéder aux formes simples.

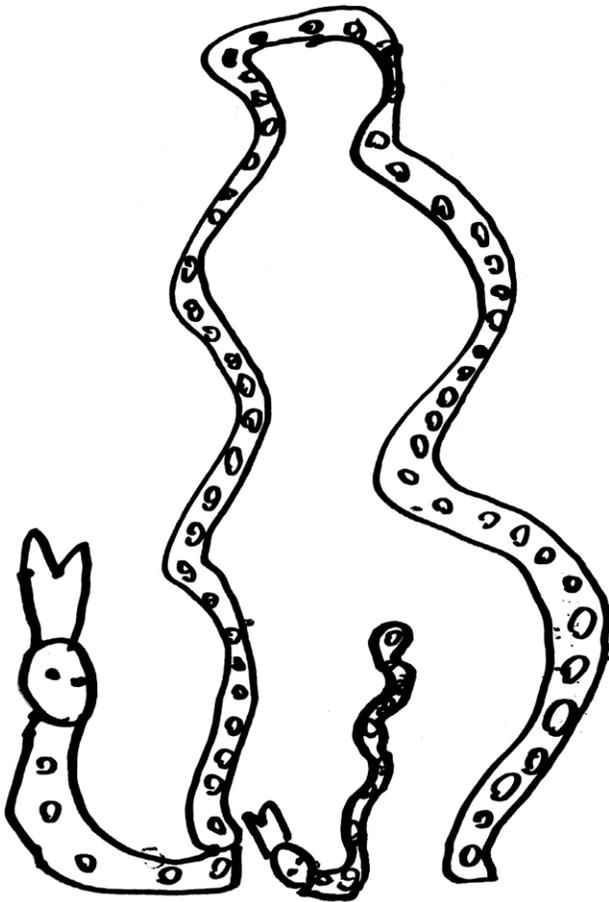

Dans l'étape suivante, ils ont utilisé le calque pour reproduire les formes pour créer une trame cohérente (le tapis).

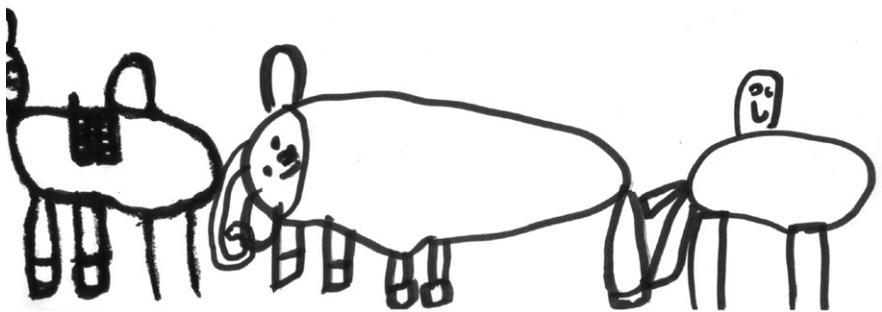

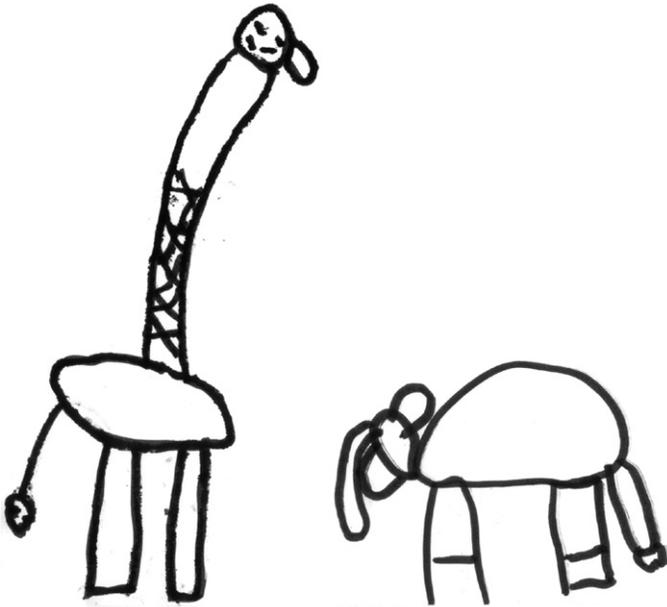

Ils ont pu aussi confronter leurs sensibilités, exprimer leurs émotions et comprendre que chacun est unique et différent.

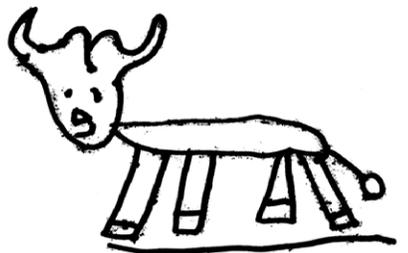

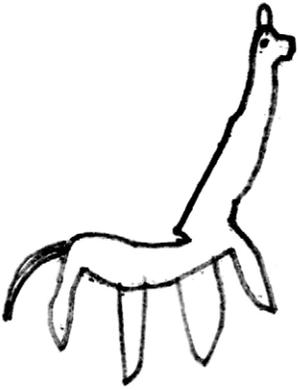

Enfin, la colorisation du fond (la silhouette de l'animal reste en clair) aux feutres, a permis de compléter le tapis en nourrissant leur imaginaire avec d'autres apports.

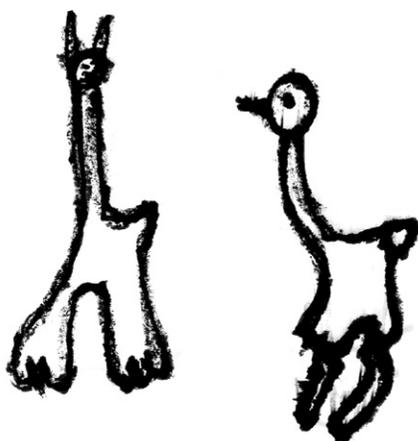

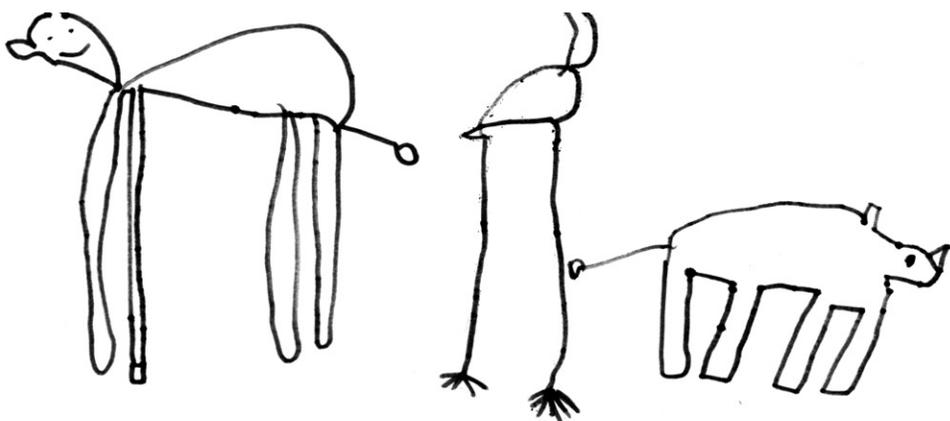

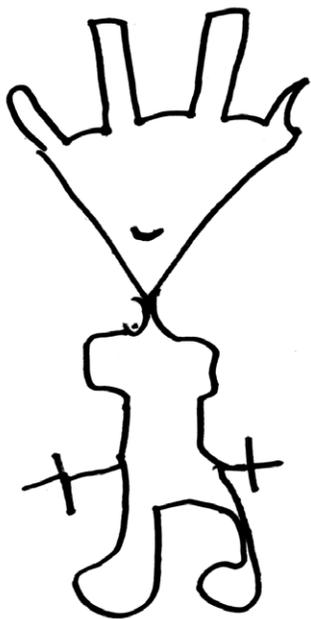

La présentation aux parents et sous forme de livret permet de mettre en lumière les savoirs et la beauté dont les élèves sont capables.
